## Variety Of Issues Discussed At School Board Meeting

The March 1, Huron School Board meeting was remarkable not so much for the content of the meeting but for the promise of future interesting debates. At the meeting, the issue of animals in the classrooms, grade point averages for student athletes and the use of latex in the science classrooms was introduced as future topics.

The animal issue apparently has been previously considered by some of the board members. A teacher, present in the audience, raised the issue and suggested that having animals in the classrooms was a teaching tool and played a positive role in educating the students. It appears

there were two parents that complained that the animals caused allergic reactions in their children. This adverse reaction now has the board considering a discussion on the short-long stay of animals in the classroom.

The teacher defended the use of animals in the classroom and noted the vast majority of the parents did not complain and the inference from this was that two parents should not sway the board into prohibiting animals in the classroom.

Board President Shaulk spoke on behalf of the board and advised the teacher that he anticipated the board would take the issue up during the

upcoming month.

The grade point average for athletes came up when Treasurer Zavodsky asked the board to consider raising the academic standards to 2.0 for athletes. He asked the issue be placed on the next agenda and spoke in favor of raising the standard. He indicated that he felt the standard was reasonable and would not adversely affect the majority of the students involved in athletics. He cited an article where one school district did so and had great success.

His enthusiasm for raising the standard did not appear to be shared by other board members. Trustee Mendrysa and Trustee Appleby expressed their concerns about the hard working but marginal students and seemed to be tipping their hat in opposition to Zavodsky's proposal.

The next board meeting will be interesting if the board members take the opportunity to discuss the practical and philosophic application of attaching academic standards to participation in athletics.

Regarding the use of latex, Trustee Long is in the process of reading about the allergic reactions of students to latex primarily used in the gloves in the various science classes. Apparently the reactions are increasing and the school may want to look into this matter and consider alternatives.

In an unrelated matter, the board accepted the low bid of \$30,374 from 2 and 2 Contractors, Inc. for the construction of a food service storage building at the Renton Junior High.

## Time Capsule In Huron's Future?

The Huron Township Historical Society is in the early stages of considering establishing a time capsule for the year 2000.

At a recent meeting, a member brought up the idea of making a time capsule and sealing it for 100 years. If the timetable is honored the future inhabitants of our area would open the time capsule in the year 2100.

It is an intriguing idea and if accepted as a project, the society will be looking to the community for ideas on the construction, storage and most importantly the contents of the capsule.

Currently the Society and the Historical Commission is working on the reclamation of the historical home and perhaps the capsule's first

home will be the historical house. If so, it would remain on display thus increasing the chances that it will not be mislaid or lost. While getting lost may seem impossible, you must consider the span of 100 years and how quickly a "gap" can occur.

If accepted, the project would require a construction that would be airtight and durable. It would have to be big enough to store many contemporary items but light enough to move if necessary.

The most exciting aspect of the project would be the nature of the items stored. What would be items placed in the capsule to represent the year 2000? Would we want letters from citizens or students predicting what the world would be

This week I would like to begin a series of recipes that are brought to us from other countries. Each month I will choose a different culture to explore. Every week I will give you a great recipe that is from the chosen country of the month.

The first country that I have chosen to explore is Ireland. This was an easy choice since St. Patrick's Day is in the month of March.

All of the recipes have been sent down through the generations, so I can't take credit for creating them, but I may

choose to update them.

# AAUW Recognize Local Women Of The Year

The Wyandotte-Downriver Branch of The American Association of University Women will commemorate Women's History Month with the recognition of three Downriver residents at their General Meeting on Tuesday, March 9, at 7:30 p.m. in the Social Hall of the First Presbyterian Church of Wyandotte, at Oak and 23rd Street in Wyandotte. Mary Sue Sickafus and Jan Piana of Grosse Ile, and Sue Edgerton of Southgate, who served as the selection committee and reviewed many nominations from Branch members for the honor, will chair the meeting and intro-

duce the women who have been distinguished as 1999 Women of the Year.

The recipients of the award are Marjory Ballheim, president of Fantasy Travel in Wyandotte, who has been active in the Kiwanis and Soroptimists service clubs. She is an advisor for the Key Club at Roosevelt High School, where she mentors high school students concerned with the importance of community service.

Also honored is Mina Howe, of the Downriver Guidance Clinic. Her work for the clinic evolved from secretary to paraprofessional during

her 26-year employment. She supervised the training of women preparing for employment through the CETA Program. Several community volunteer projects occupy much of her time in her retirement.

The third honoree is Andrea J. Stevenson, teacher and chairperson of the Mathematics Department at Grosse Ile High School. In 1997 she was named Presidential Awardee for Excellence in Science and Math as Michigan's Secondary Teacher of the Year by the National Science Foundation. Ms. Stevenson participated in a pilot program at Wayne State University sponsored by the NSF to enhance the teaching of the mathematics and which encouraged girls and women

to excel at math.

All members of the Branch, family and friends of the recipients, interested community residents and guests are welcome to attend the meeting. Branch president Laurel Plagens, of Dearborn will preside at the Business Meeting which will follow the program.

This Branch of AAUW was founded in 1931 to encourage lifelong learning and fellowship among its members and now represents many Downriver communities, from Flat Rock to Lincoln Park. Members enjoy an active program of Study-Interest Groups in addition to the usual monthly programs. The Branch supports the National Education

Foundation through its Annual Used Book Sale at Southland, donates yearly local scholarships and contributes to the AAUW Legal Advocacy Fund.

AAUW, founded in 1881 is open to all graduates who hold the baccalaureate or higher degree from a regionally accredited college or university. In principle and practice, the organization values and seeks a diverse membership, and welcomes all qualified applicants. AAUW promotes equity for all women and girls, lifelong education and positive societal changes. For membership information, please call (313) 274-8933.

## Capsule

*Continued from Page 1*

like in the year 2100? Could any machine we place in the

capsule be operated by the technology of 2100? What would the name and character of our future community be?

Should we place books, newspapers, or list our local

leaders and would they understand our form of government and what was important to us? Would they understand why in the year 2000 we still had dirt roads and still drove internal combustion engines. How much would our written language vary and would they view us as progressive or backward?

All this is very interesting speculation and if this matter moves forward, the Society will be looking for volunteers to help steer this project along.

**Scorpio (Oct. 24-Nov. 22)**

Charlie, Charlie stole the barley. Ask friends to go fishing or to a secret hideaway. Letters come in lightening speed, but reply is as easy as it is to receive. Ask soulmate to uncrash situation. New armor but people still wave at smiling faces. *Lucky #977.*

**Sagittarius (Nov. 23-Dec. 21)** To market, to market. Good time to buy house or business. Things fall your way it's about time, huh? Merchandise, appliance may need attention by professional. Children try to help home situation by sweeping dirt under rug. Bit that doesn't clean the mess up. Only you know where to throw trash. *Lucky #788.*

**Capricorn (Dec. 22-Jan. 20)** Hush a bye baby on a tree top. You feel like everybody's throwing rocks. Try to get out of situation before you get in over your head. Put friends and lovers on back burner until both feet are back on ground. Start out small, then move to big area. *Lucky #523.*

**Aquarius (Jan. 21-Feb. 19)** Find yourself up in air again. Hark, hark, the dogs do bark. Turn on light to see what's in backyard. Move ahead with master plan. Be prepared to say no on all fronts. You are already wallet thin. Plan ocean trip by end of year. *Lucky #407.*

# Dear Gappy

Dear Gappy:

Now that football is over I thought I could finally settle into watching some real T.V. (other than E.S.P.N. and the Monday Night frogs). But, "no!" I came home from work only to find my hubby in front of the telly, watching the

P.G.A. tournaments. this is serious! The volume was at screaming level as I entered the room. Here the couch potato sat with a score sheet on every golfer. Gappy, somehow he had found a way to be on golf. (Go Tiger!)

Now, I need your help. I

am afraid he has glued the remote control to his hand. Please help.

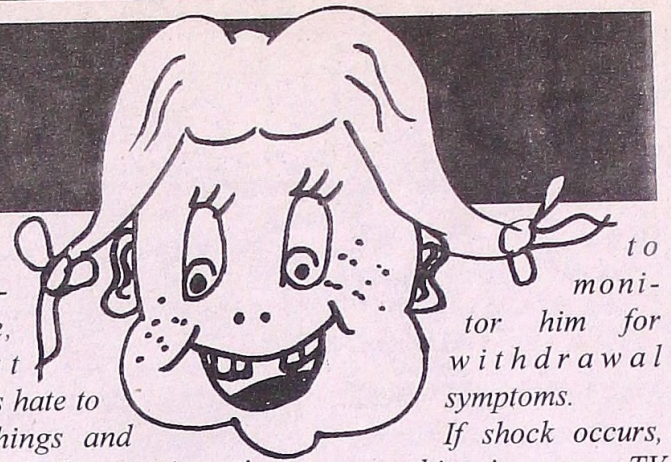

Betsy Westsy  
in New Boston

Dear Betsy:

Wait until hubby falls into a dead sleep and quietly remove the batteries from the remote control in his fist.

I guarantee, most males hate to fix things and won't bother to investigate.

A slight warning comes with this advice. You'll have

to monitor him for withdrawal symptoms.

If shock occurs, wrap him in warm TV Guides and call your local broadcasting association.

Regards, Gappy
